On Tuesday, October 20, state and county health officials notified the St. Vrain Valley School District that adequate supplies of H1N1 vaccinations have not arrived to Colorado as previously assured.

Accordingly, vaccination clinics scheduled for high school feeder systems in the St. Vrain Valley School District have been canceled until further notice. Please continue to check the District website www.stvrain.k12.co.us for information about potential H1N1 vaccination opportunities in the future.
